

Letter of Attestation for Services

February 27, 2024

To whom it may concern,

This is a letter of attestation for the security services provided by SecurIT360 LLC, an independent information security auditing & consulting professional services firm, to Transfusion Antibody Exchange. Transfusion Antibody Exchange has engaged SecurIT360 to perform the following activities during February of 2024:

- External Network Penetration Test

Testing was performed using the PTES standard. http://www.pentest-standard.org/index.php/Main_Page

All services were completed successfully and produced the following findings:

- 0 Critical Issues
- 0 High Issues
- 0 Medium issues
- 0 Low Issues

Risk Ratings calculated using the CVSSv3 Risk Rating Methodology.

Sincerely,

Brad Causey
